Swim Caps	R140

Non Branded Sport Wear

Navy Cotton Sports Shorts	R120
Navy Swim Shorts	R135
Navy Swimsuit	R155

LAUNDRY CARE

In order to increase the life of and to prevent 'unexplained' marks, stretching/shrinking of your garments it is important to follow these suggestions:

Care Method

- Read the labels on your washing powders, fabric softeners and bleaching agents and only use the recommended dosage. Limit use of fabric softeners and bleaching agents.
- Allow washing powders to dissolve in the water of your basin/washing machine before you place the laundry into the basin/machine. Do not pour washing powder directly onto your washing. Too much washing powder will make the fabric 'hard and scratchy' and will result in bleach marks on your garments.
- Read all laundry labels attached to your garments and follow the instructions.
- School blazers should only be dry cleaned.
- Sort your washing into piles of 'light' and 'dark'.

- Ensure that all fastening mechanisms are in the 'closed' position before you place your laundry into your washing machine. Velcro, open zips, metal buttons, hooks and belts damage fabrics during the wash and spin cycle.
- We recommend you do not tumble dry all clothing.
- Hang clothes inside out to dry and do not leave garments to dry in sunlight or very windy conditions for lengthy periods. This will result in fading or fabric becoming hard.
- It is best to allow stretch fabrics i.e jerseys, swim suits to dry flat if possible.
- Read the instruction manual of your iron and ensure that you use it correctly. When ironing please following ironing instructions for each garment.
- Do not iron: School blazers, tracksuits, physical education shorts, jerseys and bathing costumes.
- Do not iron over any printed artwork or embroidery of any garment.

All dark colours will eventually fade. The degree of fading depends on how often the garment is washed. Things like toothpaste, hair gels and sprays, perfume, deodorants, sun-tanning lotions/blocks do bleach and stain fabrics (especially collars). If you apply any of the above allow them to dry before they are exposed to any garment.
